7. Click "Framework for Teaching Effectiveness Series" to explore the teacher training on the Framework for Teaching

Teachscape's Framework for Teaching Effectiveness Series is an online training developed for teachers on Charlotte Danielson's Framework for Teaching. The training is specifically focused on providing an overview of the Framework and focuses primarily on Domains two and three. This online training includes approximately 20 hrs of online content that includes research, skills assessments, and video examples of each Framework component.

The screenshot displays the user interface of the 'Framework for Teaching Effectiveness Series' web application. On the left, a sidebar contains navigation links: 'journal', 'help', and 'logout' at the top; 'back to program' with a circular arrow icon; 'Arkansas Demo Program' with a folder icon; 'Framework for Teaching Effectiveness Series' with a document icon; and 'Framework for Teaching Effectiveness Series' with a circular arrow icon. The main content area is titled 'Framework for Teaching Effectiveness Series' and features a section 'Laying the Foundation'. This section includes three modules: 'Orientation' (describing the training organization and guidelines), 'Understanding the Framework for Teaching' (introducing the overall structure and content), and 'Applying the Framework for Teaching' (guiding teachers through the process of using the Framework for reflection and refinement). Each module description includes a unique identifier in parentheses, such as (tfft000) or (tfft010).

8. Click “Reflect Video Library” to view, comment, share and tag panoramic classroom videos and artifacts.

The screenshot shows the Teachscape interface. On the left sidebar, under the 'Arkansas Demo Program' header, the 'Reflect Video Library' option is highlighted with a red circle. Below it is 'Lesson Observations'. The main content area is titled 'Active Teachscape XL Workspaces' and lists several workspace options: Professional Learning Suite, Professional Learning Suite - Framework Edition, Framework for Teaching Effectiveness Series, Reflect Learning Materials, and Reflect Discussion Workspace. The Teachscape logo is in the bottom right corner.

Teachscape’s Reflect Video Library is meant to be a teacher’s online repository for videotaped lessons. In this library, individual teachers can review their videos for their own self-reflection or they can share their videos with colleagues to get feedback on their lesson and share best practices.

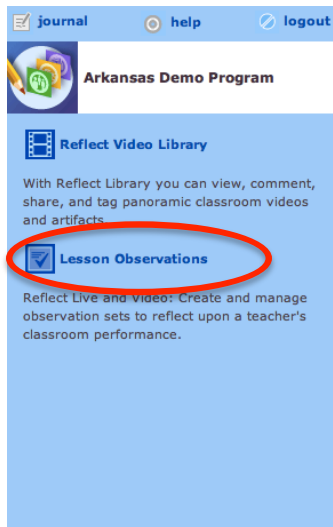

The screenshot shows the 'Reflect Video Library' interface. It includes a search bar, an 'Upload Video' button, and a 'Get Reflect Uploader' link. Below these is a table of videos. The table has columns for Teacher, Title, Grade, Subject, Created, Length, Type, and Share. The videos listed are sample videos from the Teachscape Team.

Reflect Live and Reflect Video: Teachscape's Lesson Observation tool is designed to manage and facilitate both formal and informal in-person observations. Observers can schedule observations, select observation components from a specific instructional framework to evaluate, collect evidence, assign levels of performance and finalize observation reports all from this online and iPad application. Teachers can view scheduled observations, upload lesson artifacts and submit pre and post observation forms. Both Observers and teachers can access their observations at any time from this online repository.
